

Hello from i-education

We wanted to give you a quick update on things at i-education. It has been great to see so many of you since moving offices, but for those who have not made it over here yet - the door is always open!

i-education welcomes Yvette Hynes, our new Schools account manager.

Yvette has a history of working in the education sector and joins the team as part of our expansion to help support our ever increasing number of schools. It really feels like getting the band back together! Yvette, Steve and Mike worked together in the past, and with Andy Parton located in D-hub too, Team Creative can really thrive again!

Welcome to Natalie Kenny, Primary Division Exec

Natalie joined the team to start up our primary division. This has been a great move for i-education and we hope to extend this team in the very near future.

We have a vacancy!

Want to work for Doncaster's most innovative company?(we won this years Innovation Award at the Doncaster Chamber Awards).

Education sales (I am learning), Yorkshire, Humber, North of England

See www.i-ed.co.uk/vacancies.shtml for more information

iPhone app going from strength to strength

We launched our first iPhone app back in February and since then we have had 1000's of downloads of all of our apps.

We appeared number 1 in the education store in France, and number 4 in China! We've gone global!!! With over 30,000 downloads in total, we are happy to report we will continue developing more subjects and more exciting games :-)

For more information see www.iamlearning.co.uk/iphone

DONCASTER'S HUB
FOR DIGITAL
BUSINESS

DHUB office's now full

DHUB is a hub of innovation and the home of some of Doncaster's most innovative digital businesses.

We are delighted that the offices are now full with e-education, Keglans Design and Kat Communications choosing to reside with i-education at d-hub.

We look forward to our shared successes and general good fun at d-hub!

"Relocating to d-hub has been a great move for e-education. We have already started working on a project with one of the other companies here and can't wait for its launch"

Andy Parton, Managing Director, e-education Ltd.
