

## i-education: From success to success

Things as ever are busy and exciting at i-education. Some big news we thought we would share with you.

## Well here's our success to start with

### Doncaster Chamber Business of the Year

We are already recognized by the British Chamber of Commerce as one of the top 5 Most Promising Business in the UK, Winner of the Yorkshire and Humber Most Promising Business Award and Winner of the Doncaster Chamber Best Young Business Award, together with winner of the Excellence in Customer Service Award. We are delighted to be short-listed for Business of the Year. We met with Howard Gannany, CEO of the Chamber and Peter Davies, Doncaster's Mayor and await the announcement at the awards evening 16th December with fingers crossed!

### Doncaster Chamber Innovation Award

As if that wasn't enough, Doncaster Chamber have also short-listed us for the Innovation Award. Innovation is at the very heart of i-education; not just in the innovative technology space, but within ever process at i-education. Our team display ambition, creatively and innovation in every aspect of their work, and our products, services and solutions offer our education and corporate clients the opportunity to innovate themselves.

### Digital Entrepreneur Award: Education

Having won this award last year, we have been nominated again. Michael Wilkinson has become the face of these awards with his award winning story on the homepage of the awards <http://www.digital-entrepreneur.co.uk>

Let's hope is three out of three ☺

## From success, to success, how we are giving something back

You might have heard about **our big move**.

We've bought ourselves a nice posh office at Atlas Office Park, FirstPoint – opposite Amazon (how cool is that!!!).

The new office helps us accommodate our ever growing team (and gives us space for the pool table and air hockey table everyone keeps asking for!). We can also begin expanding Pagabo (we've another big announcement here but that can wait until later!) and Online Assessment Systems, our other two business engagements. That accounts for the first floor. Don't worry – their will be an opening party once we are properly settled and invites will be coming!

The lower is 1200 sq ft of free space. We are working together with Success Doncaster and Business Buddies to hopefully create a series of incubator units to create a hub for the Digital Industry.

i-education currently act as mentors for the Success Doncaster and Deloitte D100 initiative by supporting emerging entrepreneurs in the Digital Industry. Having won the numerous awards both locally and regionally for our innovative approach towards the digital industry, we would like to see the development of the Digital Sector in Doncaster. From our mentoring experience and from our involvement with the Success Doncaster Business Buddy programme we have identified a demand for a "Digital Hub". This will not only boost the local economy but will also give young entrepreneurs the opportunity to develop their skills in and for the benefit of Doncaster.

## Keep in touch!

Right...that's our news at the moment! The door is always open in the new office
